**Denver, Colorado 80239**

**RSVP: Ginger Sammonds, [gingers@lpbroadband.net](mailto:gingers@lpbroadband.net)**

**COST: \$30 per attendee (additional \$30 for dinner)**

A professional gundog trainer and breeder, Helen Phillips has been hunting for many years with her team of Hungarian Vizslas. These multi-purpose dogs will hunt, work with the beat, point, flush, retrieve from all terrain and in water. The dogs accompany both Helen and her husband on a range of different types of shoots from large commercial events to a pleasant day rough shooting.

Helen teaches a course in Canine Behaviour Education and Training at the Warwickshire College. She has achieved the *Award with Distinction* and is a qualified teacher in adult education. She is the author of *Clicker Gundog (Learning About Dogs)*.

This seminar is a wonderful opportunity for any gundog owner to learn about training while avoiding any negative experiences with their canine companions. Not only is this technique suitable for field dogs, but any dogs working in an environment where stimulus control is necessary. Learn how to positively train, using natural instincts in conjunction with a working partnership.

Helen will cover:

- Teaching and refining the hunting skills
- Search and locate techniques
- Soundness on point and flush
- Solid retrieves and redirection

The key to success in all of these areas is high level control that exceeds the stimuli of working in the field.
